

Print Finishes

Canvas & Photo Prints

Canvas - Mirrored Blur finish

This finish provides a superb soft edge, perfect for unwanted repetitions of the front image on the canvas edge.

Canvas - Mirrored finish

This finish provides a sharp edge, perfect for reflecting the front image to maximise the canvas width.

Photo Prints

Printed on Pearl 290 high quality white photographic paper. Great detail with natural colours producing a stunning finish.

White Border

Photo prints can also have a white border added to the edge of the image, this allows more room when mounting and framing the print. If the print size is the exact size as the frame then please do not request a white border as the print will be too big.

Delivery charges

Canvas: £7.95

Photos: £3.95

All prints can be delivered within 48 hours of ordering
